Inertia Switch Incorporated
COVID-19 (Coronavirus) Impact
Updated: 3/19/2020

Dear Customer,

During these difficult and unprecedented times, we hope you, your families, and colleagues remain well.

Inertia Switch is taking every precaution to safeguard the well-being of our employees while maintaining business continuity. We are continually monitoring updates released from health authorities at the federal, state, and local levels. We have comprehensive social distancing protocols in place and are complying with recommendations from the CDC and local authorities.

Inertia Switch continues to operate normally without delays. We are working with our supply base to identify and reduce risks to potential production disruptions. We are also working with our customers to provide accelerated scheduling for open orders and contracts.

We are confident in our preparedness during this crisis and will continue to provide updates as the situation evolves.

Sincerely,

A handwritten signature in black ink, appearing to read "Aaron Stotesbury", is positioned above the typed name.

Aaron Stotesbury
Vice President
Inertia Switch Incorporated
